

NORTH SOUTH UNIVERSITY

The first private university in Bangladesh

Admission Going On

BSCEE-Bachelor of Science in Civil and Environmental Engineering Department of Civil and Environmental Engineering (CEE)

UGC approved state-of-the-art Civil Engineering degree that covers all the five branches of Civil Engineering viz. Structural, Geotechnical, Transportation, Water Resources and Environmental Engineering. Course curriculum follows IEB (Institution of Engineers, Bangladesh) and ABET (Accreditation Board for Engineering and Technology, USA) guidelines. Considering increasing importance of environmental issues in the infrastructure development sector, many of the universities worldwide (e.g. MIT, Stanford, UC Berkeley, etc.) have changed the name of Civil Engineering degree to Civil and Environmental Engineering. NSU thus adopted the same name.

Civil Engineering is considered as the oldest and the most classical form of engineering education covering diverse fields. Still now, the highest number of government engineering jobs in Bangladesh are for civil engineers, who constitute the maximum number of BCS cadres for a single professional category. As a developing country, Bangladesh is undergoing a massive growth in its infrastructure development with a large number of proposed mega structures so that the demand for civil engineers will continue to grow day by day. Ample job opportunities are there for civil engineers in abroad as well.

Faculty Members

Highly competent faculty members with MS or PhD degree mostly from USA and Canada teach in the department. Apart from this, a number of eminent academics and professionals in the field are involved with the department in various capacities as the members of the Coordination Committee and the Advisory Council for proper functioning and progress of the department.

Lab Facilities

State-of-the-art laboratories with the most modern facilities.

Credit Transfer & Financial Aid

Civil Engineering students studying at other reputed public or private universities in Bangladesh or elsewhere in the world may transfer their credits to BSCEE of NSU. NSU degree and courses are accredited worldwide. NSU also offers a large number of scholarships every year to deserving students.

International Collaborations

Collaborations with reputed foreign universities are established to maintain international standard.

Students who indicate BSCEE (Civil & Environmental Engineering) as first choice will be given priority.

Admission Criteria: Combined GPA of 8.00 in both SSC and HSC with minimum GPA of 3.50 in each OR O-level in five Subjects with GPA 2.5 or above and A-level in two subjects with GPA 2.00 and above. Candidates must have Math or Physics, with Minimum B grade in HSC or C grade in A-levels to be eligible to apply.

Admission Test: A two-hour Admission Test consisting of English grammar & vocabulary, Quantitative Aptitude (General Math), Reading comprehension and Composition.
