PRESENTATIONS AND RESEARCH EXPERIENCE:

- Presented a journal paper titled "A Simple Model of Firm Heterogeneity, International Trade and Wages" by S.R. Yeaple from the Journal of International Economics in one of my courses which was part of the post-graduate program at UNSW. The paper developed a model to explain how firm heterogeneity arises in an open or closed economy. Received a score of 96% in the presentation which reflects the fact that that the candidate has sufficient analytical and critical thinking abilities to analyze and explain economic models.

- During the internship at Bangladesh Bank the candidate prepared a report which analyzed the rising trend in the domestic food prices of Bangladesh during 2012-13. The paper was much appreciated by the supervisor, the Economic Advisor of Bangladesh Bank, Dr. Md. Akhtaruzzaman and the Governor of Bangladesh Bank. The paper focused on the transmission mechanisms through which supply shocks affect the domestic food prices. A simple econometric model was also developed which sought to explain the rising trend in the domestic food prices.
