Message from Treasurer

Thank you for visiting my website. I am Professor Dr. Gour Gobinda Goswami, the Treasurer of NSU who is the center of all financial management of NSU under the Private University Act 2010 (PUA 2010) of Bangladesh. I work under the direct supervision of our Vice Chancellor and the Board of Trustees of NSU. According to PUA 2010 Treasurer is the 3rd executive position. The duties and responsibilities of Treasurer is specified and guided by the PUA 2010 of Bangladesh. All financial matters starting from the lowest to the highest amount is being processed through the Treasurer. That’s why it is considered as the most important position in the private university system of Bangladesh. Director of Finance & Accounts directly works under the supervision of Treasurer. As a matter of fact most of the administrative and academic matters have strong financial element in them. Therefore, it is hard to find a proposal with zero financial involvement.

According to PUA 2010 (Article 33(1)) Treasurer who is being appointed by the Chancellor (the Honorable President of the People’s Republic of Bangladesh) for four years on recommendation of the Board of Trustees is in charge of overall management of university fund, formulation of annual budget, financial management, restoring financial discipline and accounts. Private Universities in Bangladesh are non-profit based organization. Considering the fact that the number of private university students surpassed the number of public universities over time Treasurer plays a crucial role in ensuring financial solvency and the quality of financial transactions. In the absence of Vice Chancellor and Pro-Vice Chancellor, Treasurer also serves as the Vice Chancellor of the University. Treasurer plays a vital role in the formulation and implementation of major financial reform and policies to take the University to the global standard in terms of financial management. Thank you once again for visiting my webpage.
