

## **NORTH SOUTH UNIVERSITY**

### **II URGENT NOTICE II**

This is for the information of all concerned that the internationally renowned North South University admits students through a rigorous and incorruptible process of admission. There is no scope for tempering the process by anyone. Bribery and “donations” simply do not work in relation to the NSU admission process. Any person or persons offering deals for backdoor admissions are swindlers and frauds whom the University regularly apprehends and hands over to law enforcement agencies.

It may be mentioned that this Fall 2017 admission season we have captured several of these suspected criminals offering the false hope of securing admission into NSU and trying to cheat candidates and their parents.

I urge the candidates and their guardians to be on guard and not to be deceived by any such false hope.

I wish all the candidates the very best in their admission efforts.

Sincerely,

**Professor Atiqul Islam**  
Vice-Chancellor, NSU
